1. Less Emissions Inc. (the Company) acquired sufficient carbon offsets to satisfy its carbon offset sales commitments to its customers during the year ended December 31, 2009.
2. The carbon offsets sold during the year ended December 31, 2009 were acquired from emission reduction projects certified by the United Nations' Clean Development Mechanism, which produce CERs, and certified as Gold Standard as defined by the Gold Standard Foundation.

Carbon offsets acquired by the Company included the rights to the environmental benefits associated with the reduction of certain tonnes of CO₂e, and the producers, pursuant to their obligations to the Company and under the United Nations CDM Registration and Issuance Unit criteria, have retained no claims or assertion of rights to such environmental benefits.
4. The carbon offsets acquired by the Company to meet its sales commitments are serialized and have been permanently retired on the Swiss National Emissions Trading Registry established pursuant to the United Nations Framework Convention on Climate Change.
5. The Company's carbon offset programs complied with the EcoLogo^M criteria defined in Environmental Choice Program (ECP) Certification Criteria Documents CCD-162 and CCD-164 during the year ended December 31, 2009.

The assertions are the responsibility of Management. Our responsibility is to express an opinion based on our audit.
